

To Whom It May Concern:

We are seeking sponsorship for our Formula One team, Interstellar M1. The team is Brentwood High School's 2016-2017 F1 in Schools team that will be heading to the World Finals in Kuala Lumpur, Malaysia this September.

F1 in Schools is the largest S.T.E.A.M. (Science, Technology, Engineering, Art and Math) competition for high school level students. Every year, over 15,000 teams from over 49 Nations compete. Teams of students deploy CAD/CAM software to collaborate, design, analyze, manufacture, test then race miniature CO2 powered balsa wood F1 cars. The competition inspires students to use physics, aerodynamics, design, manufacturing processes, branding, graphics, sponsorship, marketing, leadership/teamwork, media skills and financial strategies, and apply them in a practical, imaginative, competitive and exciting way.

In order to compete in Malaysia this September, we need to secure enough funding to pay for the plane tickets, registration, purchase parts of the car, secure uniforms, create our display, and build awareness of F1 in schools.

Our team, Interstellar M1, is composed of six students from Brentwood High School. Brentwood is a small district, with approximately 65% of our student population receiving free or reduced lunch. We do not receive any school funding for this program and are completely fueled by donations. Therefore, we need the help of the community and other businesses to achieve our dreams of going to the F1 in Schools competition in Malaysia.

In exchange for your financial support, your business would receive different visibility options based on our sponsorship levels: Star, Nova, Supernova, and Black Hole. (Please refer to page three of this document for detailed information on entitlements for your sponsorship.) Thank you in advance for the consideration. This is a once in a lifetime opportunity for the team and we appreciate the support of the community to put Brentwood on the map!
